CSCI 491/591 Homework 6

When you leave this university, you need a way to present yourself and the work that you have done. One of the best ways is to not only show you work but describe who you are. You are to start creating a web presence about yourself. Start by describing who you are and what you are about.

Make sure the page is "intuitive" for all users. Also, make sure that it works on different sized devices (PC vs. Tablet vs. Mobile) as best as possible.

Specifics:

1. You are take the chat functionality and create a short install tutorial based on what you did.
2. You are to create small database application that takes in data from a form and stores it in a database and then shows all the users that were entered on a separate page using Node.js.
3. Put your chat project and tutorial into your github repository as well
